## SASGOG Research e-Letter

November 2021

### RESEARCH NEWS & EVENTS

#### SASGOG 10th Annual Meeting: May 2022 - Call for Abstracts

The Society for Academic Specialists in General Obstetrics and Gynecology (SASGOG) announces the call for abstracts for the 10th Annual Meeting, to be held on May 5, 2022. All abstracts must be original work. Case reports will not be considered. All submissions are peer-reviewed and scored on: scientific merit, originality, and relevance to general obstetrics and gynecology. Outstanding abstracts will be eligible for monetary awards.

The deadline to submit an abstract for consideration is Monday, January 10, 2022, at 11:59 PM EST. Submitting authors will be notified of acceptance or rejection, and if accepted, oral or poster presentation, by end of February 2022.

A limited number of meritorious abstracts will be accepted for oral presentation. For poster presentation, additional information will be provided upon acceptance of the abstract.

Please note: At least one author must be a current SASGOG member.

#### SUBMIT ABSTRACT

#### SASGOG Member Receives NIH Grant

Johns Hopkins Medicine's Department of Gynecology and Obstetrics is one of five institutions selected to study the impacts of COVID-19 vaccines on menstruation. SASGOG member, Mostafa Borahay, M.D., Ph.D., associate professor of gynecology and obstetrics at the Johns Hopkins University School of Medicine is the lead investigator on the study.

## RESEARCH RESOURCES & OPPORTUNITIES

The [SASGOG Research webpage](#) was recently updated to provide members with a comprehensive resource for research tools, resources, and opportunities. Each quarter a few will be highlighted in the newsletter:

### Statistical Analysis Resource

A table with general guidelines for choosing a statistical analysis and how to perform the tests with a variety of statistical software. [View now >>](#)

### Tools for Team-based Science and Collaboration

As interprofessional, team-based scientific publication becomes more common, authors need tools to guide collaboration and ethical authorship. [View now >>](#)

### Sharing Research Resources

Sharing Education, Training and Other Resources

Do you have any research-related resources available to specialists in OBGYN that you

## Vaginal Hysterectomy—A Survey on Adherence to Guidelines

The objective of this study is to compare the use of vaginal hysterectomy pre-, intra- and post-operative techniques recommended in the clinical practice guidelines between gynecologic surgeon subspecialists and gynecologic surgeon specialists. [Learn more >>](#)

## J-Pouch Procedure Study

Study to ascertain general provider knowledge about j-pouch procedure, as well as to define how providers approach discussions about these procedures and potential fertility complications related to this procedure. [Learn more >>](#)

## Quinagolide vaginal ring for endometriosis-related pain

This study — currently enrolling — evaluates the effectiveness of three doses of quinagolide administered as an extended-release vaginal ring to reduce moderate-to-severe endometriosis-related pain. [Learn more >>](#)

## Publicizing Your active Research Studies

Do you or your institution have an active research study that is applicable to academic specialists in general obstetrics and gynecology? SASGOG is happy to promote research studies to our members. Here's what you'll need:

- Study is submitted by a Supporting Institution, or one of the study investigators is a SASGOG member.
- A copy of the approved IRB.
- A descriptive title of the study and a brief description of the study.
- A link to the study survey and a link to a website that has more information about the survey.
- The start and end date of the study survey.
